SET TODAY'S LEARNING OBJECTIVE: you can write it on the board and make your students copy it or let one student write/stick it on the board for you.

PLAY A SHORT STARTER GAME: design a game about previously taught learnings so your students can go over them.

<u>Boom</u>	<u>Yes, no, stand up</u>
<u>Pass the clap</u>	<u>Quick fire vocabulary</u>
<u>Word race</u>	<u>Whole class Crossword</u>
<u>Hot seat</u>	<u>Future telepathy</u>
<u>20 questions</u>	<u>Two truths and a lie</u>
<u>Stop the bus</u>	<u>Hangman</u>
<u>Pictionary</u>	<u>Yesterday I went shopping</u>

DEVELOP YOUR ACTIVITIES: plan your lessons focusing on your selected learning objectives extracted from the assessment criteria. Design varied activities to cope with them.

END WITH A CALM DOWN ACTIVITY: you could end your lesson with a relaxing routine. Try not to play the videos but to learn the exercises and to do them with your kids. You can be their guide!
