

The Canary Health Department has confirmed 63 active cases of coronavirus COVID-19 and 7 medical discharges

- **There are two new cases in Lanzarote who are in isolation in tourist accommodation**
- **The population is asked to call the line 900 112 061 when they have symptoms of coronavirus and to leave the line 112 free for emergencies only**

The Canary Health Department has confirmed 63 active cases of coronavirus COVID-19 today Friday and 7 medical discharges, making a total of 70 accumulated cases. Of these, 18 people are hospitalized, 3 of them are in a serious condition; two in Gran Canaria and one in Tenerife. By islands, Tenerife has 45 positive cases and 5 medical discharges, two of which have occurred in the last few hours. This means there are 50 accumulated cases in Tenerife. In Gran Canaria, there are 13 active cases; Lanzarote has two cases; La Palma has two further cases, Fuerteventura, one and the two registered cases in La Gomera are included in the statistics.

Coronavirus hotline

For the sake of better care, the population is asked to use the resources rationally. The coronavirus care telephone number set up by the Canary Health Department is 900 112 061. This line has been reinforced with more staff to assist all those who have symptoms (such as cough, fever, headache, etc.) and who have been in contact with people who have traveled to risk areas such as Madrid, the Basque Country or Italy. The staff at this phone line 900 112 061 will assess and manage the testing. The 112 phone line is for emergencies only.

Containment measures for the coronavirus #stayathome #flattenthecurve

Visits to hospitalized patients and emergency services are prohibited in all hospitals of the Canary Health Service, except in exceptional cases such as patients under the age of 18 or in palliative care.

All clubs and leisure centers for the elderly in the Canary Islands have been ordered to close.

Visits to all nursing and care homes for the elderly in the Autonomous Community are prohibited.

Young people, especially those returning from risk areas, are asked to avoid going out and being in close contact with other people, especially immunosuppressed and older people. These days when classes are suspended are not holidays, young citizens' collaboration is essential to stem the spread of the virus.

Events of more than 1,000 people are prohibited.

Events with fewer people should only occupy no more than a third of the authorized capacity.
